COLLEGE NOTICE

HEAD OF THE DEPARTMENT OF AERONAUTICS

Professor Ferri Aliabadi has been appointed as the new Head of the Department of Aeronautics with effect from 1 August 2009 for a period of five years in succession to Professor Richard Hillier.

Following an early career at Southampton University, Professor Aliabadi was appointed Professor of Computational Mechanics and Director of Aerospace Engineering at Queen Mary, University of London. He joined Imperial in 2005 as Professor of Aerostructures. With a 25 year research career in Computational Structural Mechanics, Professor Aliabadi has an international reputation for his achievements in developments of the Boundary Element Method and Fracture Mechanics.
