COLLEGE NOTICE

HEAD OF DEPARTMENT OF CHEMICAL ENGINEERING

Professor Andrew Livingston FEng has accepted an extension to his appointment as Head of the Department of Chemical Engineering to 30 September 2016.

After graduating in New Zealand and a period in industry, Andrew Livingston took a PhD at Cambridge subsequently joining Imperial as a Lecturer. He was appointed a Professor in 1996 and a Fellow of the Royal Academy of Engineering in 2006. His research interests centre on membrane technology for chemical and pharmaceutical applications. Professor Livingston leads a research group of PhD students and post doctoral research staff; his awards include the Cremer and Warner Medal of the Institute of Chemical Engineers and the Royal Academy of Engineering Silver Medal, and, amongst a number of academic distinctions, an MSc in Economics from the LSE.

Professor Livingston was first appointed Head of Department in 2008.
