

Imperial College London - Faculty of Medicine Fellowships

Criteria for the award of Fellowships

The following criteria mirror the College's criteria for the election of Fellows.

1. Fellowships of the Imperial College Faculty of Medicine may be awarded:
 - to former members of staff or to former students of Imperial College Faculty of Medicine, who may be deemed eligible by reason of their outstanding achievements or of exceptional services rendered to the Faculty;
 - to other persons not members of the Faculty who are of outstanding distinction in appropriate fields and whom the Faculty wishes to honour.
2. In the above criteria
 - "achievement" should mean truly outstanding and "services" to the Faculty truly exceptional;
 - former staff (who are not former students) should be selected mainly from those who have retired as Professors of eminence in their fields and especially those who have rendered special service to the Faculty as Deans, Heads of Divisions, etc.
3. A person who on his/her retirement was a member of the staff of the Faculty should not be considered for election to Fellowship until one calendar year has elapsed since his/her retirement or since his/her appointment as Senior Research Fellow.
